
Accessibility

MRED seeks to provide an accessible website. If you have difficulty accessing or viewing content on any of our websites or experience other accessibility difficulties, please let us know by contacting MRED at accessibility@mredllc.com. Please specify the nature of the accessibility issue and the assistive technology you use. MRED will assist in providing the content to you.

Tips to Improve Accessibility

Web accessibility may be optimized by choosing computer and browser settings designed to enhance your web viewing experience.

Visual Accessibility

The U.S. Social Security Administration offers tips for optimizing your computer and browser to improve your online viewing experience.

- [Use the keyboard to navigate screens](#)
- [Increase text size](#)
- [Magnify your screen](#)
- [Change background and text color](#)
- [Make your mouse pointer more visible](#) (For Windows users only)

For additional information, please refer to the US Social Security Administration website at the SSA Accessibility Help Webpage.

Keyboard or Mouse Accessibility

If you find a keyboard or mouse difficult to use, speech recognition software such as Dragon Naturally Speaking help you navigate web pages and online services. This software allows the user to move focus around a web page or application screen through voice controls.

Audio Accessibility

Your computer, tablet, or mobile device has volume control features. Each video and audio service has its own additional volume controls. Try adjusting both your device's volume controls and your media players' volume controls to optimize your listening experience.

Contact Us

In our ongoing effort to enhance the accessibility of our website, MRED welcomes your suggestions and feedback. Please contact us at accessibility@mredllc.com.
